What the Retirement Business Mentoring Program Is Designed to Do...

- Develop simple, inexpensive multiple websites that sells your products or service and actually programs new customers to buy even more running on auto pilot.
- Shift your focus from "busy-ness" to taking action.

- Focus on creating multiple business units as a major activity of your business.
- Free your time to enjoy the lifestyle you deserve with personal productivity systems designed to double your time off as your businesses would run on auto pilot.

Programme Materials You'll Receive...

We believe that Retirement Business Mentor Programme is one of the best comprehensive and focused business-building programmes available today.

To create this ground-breaking experience, Bibi has drawn from her 20 years' worth of experience in starting, growing and selling businesses to implementing, testing and discovering what makes businesses money. Along with that expertise, she's added her own personal experience as a bestselling author, internationally respected speaker, successful business owner and strategic advisor to many entrepreneurs.

The comprehensive materials you will receive every week for the next 10 weeks on the mentoring programme include:

- A step by step blueprint of the Retirement Business Opportunity of the week
- • Private Label Resource for the week to help you become a recognised published author
- eBooks with Master Resell Rights for you to sell on your websites or on eBay
- Bonus money making business ideas
- Training & Learning Resource of the Month to build your business skills and help you create multiple streams of income

To be sure your investment in the mentoring delivers a return for you, we recommend the following:

- Commit to Yourself That You'll Maximize Your Mentoring Experience. A successful coaching experience takes the dedication of two very important people—you and your mentor. To insure that your investment in mentoring pays off, commit now to participating fully, even when you might seem overwhelmed by other concerns of your day. The Retirement business

mentoring program is designed to alleviate these headaches as you steadily implement new business systems that take away these daily cares.

- Take Action and Implement What You Learn. When you start executing the income generating strategies, You will begin to see results. You may make mistakes as you implement but do not give up.
- Schedule Time to Make your Mentoring a Priority We're often asked how much time the mentoring commitment requires every week. And while the benefits you and your business will reap from mentoring are directly related to how much time and effort you put in, the minimum amount of time required is about 1hr five times a week which is approximately 5 hours a week.

Of course, when it comes to actually implementing individual strategies in building your business, the schedule might take a longer amount of time if you're less familiar with basic business building strategies and internet marketing techniques or a shorter amount of time depending on your level of expertise.

I look forward to working with you and helping you build multiple streams of income over the next 10 weeks. Feel free to email me RetireRichRetireHappy@live.com with your comments, challenges and questions during the mentoring program and I promise to reply personally.

I look forward to seeing you at the top

God bless
